徐硃杰

北京 | 男 | 1985 年 | 15011211073 | xuzhujie@hotmail.com

2020年10月 – 至今 滴滴出行国际化安全与隐私合规团队负责人（base北京）& 新加坡 DPO

核心工作成果：

• 主导设计滴滴国际化隐私合规工作框架，实现连年0重大数据泄露事件与0监管问责事件发生；

• 从0到1构建滴滴国际化产品隐私合规体系，并打造合规三件套：隐私合规SDK、国际化合规扫描引擎、一站式隐私中心；

• 成功推动 6 项国际认证（ISO 27001/27701/22301、TRUSTe、ePrivacy、PCI-DSS），支撑全球业务合规准入。

核心工作内容：

1. App产品合规体系建设

职责：主导全球应用商店合规准入策略制定，确保产品设计、开发、运营全周期符合LGPD、LFPD等法规。

- 构建覆盖14个国家/地区的隐私合规框架，完成100+隐私策略更新，实现Google Play/App Store合规通过率100%；
- 设计隐私合规SDK与功能模块，实现用户数据透明化管控；
- 开发合规检测引擎，拦截50%隐私设计缺陷，产品发布前合规达标率提升至99%。

2. 数据安全与数据合规治理

职责：构建数据全生命周期风控体系，聚焦跨境流动治理、分类分级与加密脱敏，确保数据处理活动符合各国监管立法要求，规避重大数据泄露事件发生。

- 主导跨境数据治理，完成20亿+用户字段标签化，跨境数据泄露风险降低89%；
- 设计数据出境“护照机制”，实时拦截异常传输行为，拦截率超95%；
- 构建五级数据分类模型，完成百亿+ 用户PII数据加密治理，输出自动化脱敏SDK方案。

3. 信息安全与合规风险治理

职责：构建覆盖供应商管理-数据外发-权限管控-应急响应的全链路风控体系，主导实施：供应商安全准入评估/数据外发审计/跨境权限回收/数据防泄漏策略制定。

- 实施供应商安全准入与数据外发审计，淘汰高风险供应商十余家，第三方数据泄露事件归零。
- 权限精细化管控：设计动态权限回收机制，针对跨境协作等场景，自动撤销冗余权限1.5万+个，权限滥用风险下降76%；搭建权限热力图看板，实时监控全球8大区域权限分配，高危操作拦截率100%；
- 合规风险主动防御：落地产品级PIA机制，拦截高危设计23项，规避监管处罚事件；构建监管情报预警平台，关联50+国政策库；
- 社媒与应急体系强化：响应Facebook/Twitter/TikTok等社媒平台合规要求，违规数量下降80%。

4. 合规运营体系长效维护

职责：构建「监测-培训-赋能」三位一体合规运营中台，覆盖职场巡检、知识沉淀、行业咨询输出，驱动合规文化全球化渗透

- 搭建全球职场合规巡检机制：建立季度巡检SOP，覆盖国际化8大区域职场，核查设备加密、权限管理、数据物理安全等12类控制项，合规达标率显著提升；
- 合规能力中枢建设：主导编制《滴滴出行国际化隐私合规白皮书》（中英双语版），系统输出滴滴跨境合规方法论；并搭建业界合规情报监测平台，整合全球各国监管动态、2000+案例库及知识图谱，支撑产研团队日常合规决策效率提升；
- 认证与培训体系升级：推动 6 项国际认证落地（ISO 27001/27701/22301、TRUSTe、ePrivacy、PCI-DSS等），支撑业务增长；建立“总部-区域” 全球培训体系，输出多语种《隐私合规手册》，关键岗位员工合规培训覆盖率98%。

2019年12月 – 2020年10月 滴滴出行 – 顺风车事业部 – 安全运营专家

职责与成就：

- **全链路安全风控体系升级：**构建顺风车业务风险大盘，识别司机准入、行程中异常停留等6类高危场景，推动策略优化23项，重大安全事故下降45%；设计安全事件PDCA闭环复盘机制（计划-执行-检查-改进），平均事件处置

时效从72h缩短至12h

- **安全复盘体系从0到1建设：**首创业务安全事件复盘标准化框架，开发自动化复盘工具，实现：事件根因分析效率提升70%，预防措施覆盖率从60%提升至95%；输出《顺风车安全复盘SOP手册》，成为集团安全运营标杆方案。
- **重大突发事件处置：**主导跨8部门应急响应机制设计，协调产品、客服、法务等团队，全年处置高危事件37起，用户投诉下降52%；建立危机预警指数模型，通过司机评分、行程轨迹等10+维度实时监测，潜在风险识别准确率91%。

2018年11月 - 2019年12月底 | 阿里巴巴 - CRO线 安全部 数据安全团队 - 安全运营

关键职责与成就：

- **账号安全治理体系落地：**主导10万+员工账号生命周期管理，优化统一身份目录，冗余账号清理率98%，账号滥用事件下降67%；设计动态权限模型，ACL审批流程从3天压缩至2小时；
- **风控预警与审计：**开发账号风险画像系统，集成UEBA行为分析，确保账号使用合规。
- **ACL权限运营：**负责ACL权限安全业务的产品运营，包括权限管理优化和权限申请流程改进，支持事业部组织架构调整的权限管理需求。
- **终端与信息安全：**管理内部终端安全和信息安全产品运营，主导内部产品用户迁移项目和风险治理专项，提升整体安全防护水平。
- **风险治理与合规：**与业务团队建立沟通协作机制，负责数据产品及服务的安全合规性，进行数据安全风险评估，并制定整改措施。
- **数据外泄风险管理：**应对外部平台数据泄露风险事件，建立和优化数据安全事件应急流程，协同各方有效处置突发事件。

2009年08月-2018年10月 | 奇虎360 & 360企业安全集团（现奇安信）

· **2017年04月-2018年10月： 原360企业安全集团（现奇安信） 国际化产品经理/海外区域产品营销经理**

关键职责与成就：

- **产品国际化与项目管理：**作为360天擎国际版产品经理，领导并成功开发了第一代国际版终端安全管理系统，独立完成了超过50%的产品界面翻译工作，确立了产品国际化架构。
- **市场拓展与客户关系：**独立负责360企业安全终端安全产品在港澳及印尼市场的行销工作，建立并维护了优质的客户关系，并完善了产品的海外报价体系。
- **安全预警与应急响应：**建立内外部预警和安全应急响应机制，有效组织应对“永恒之蓝WannaCry”等重大安全事件，制作离线工具进行企业客户预警，减少潜在损失。
- **产品运营与漏洞修复：**负责天擎产品漏洞修复模块的运营，建立运营体系，定期向企业客户推送最新的漏洞补丁库和相关文档。
- **国际合作与测评项目：**建立与微软、Gartner等国际组织的对接项目，成功组织360天擎终端安全管理系统（360Skylar）的国际测评。

· **2014年06月-2017年03月：** 360 Total Security 产品运营经理 下属人数：3人

· **2013年07月-2014年06月：** 360 Internet Security 产品运营主管 下属人数：3人

· **2010年02月-2017年01月（持续）：**360安全卫士产品运营主管 漏洞修复模块 下属人数：3人

关键职责与成就：

- **漏洞库维护与安全更新：**负责系统漏洞库的维护，及时收集整理并推送微软补丁包，保障用户上网安全。
- **创新安全更新概念：**国内首批提出并实施软件安全更新概念，收集并推送第三方软件漏洞补丁，高峰期每日下载量达2亿。
- **工作效率提升与自动化：**通过不断优化工作流程，实现了从全人工手动到半自动化再到完全自动化的转变，提升了产品更新升级的效率。
- **用户反馈与社交媒体运营：**积极处理用户反馈，提供远程协助解决问题，并通过新浪微博发布安全更新预告与公告，策划并执行推广活动。

· **2009年08月-2010年02月：** 360安全卫士-软件管家产品运营

教育经历

2004年9月-2009年7月 大连外国语学院 英语（英日双语） - 统招本科（五年制）

JAY XU

Beijing | Male | birth in 1985 | +86 15011211073 | xuzhujie@hotmail.com

Aug 2024 – Present: DPO of DiDi Mobility Information Technology PTE. Ltd. (Singapore, base in Beijing)

Oct 2020 – Present: Team Leader of International Security & Privacy Compliance Team

Key Achievements:

• Designed DiDi's global privacy compliance framework, achieving **zero major data breaches or regulatory penalties for consecutive years**.
• Built DiDi's international product privacy compliance system from scratch, including the **"Compliance Toolkit"**:

- **Privacy Compliance SDK**: Ensured transparent user data collection controls.
- **Global Compliance Scanning Engine**: Integrated dynamic and static monitoring to intercept privacy design flaws.
- **One-Stop Privacy Platform**: Centralized DSAR (Data Subject Access Request) management and risk assessment.

• Spearheaded 6 international certifications (ISO 27001/27701/22301, TRUSTe, ePrivacy, PCI-DSS), enabling compliance for global market expansion.

Key Responsibilities & Contributions

1. App Product Compliance System Development
Role: Led global app store compliance strategies to ensure end-to-end adherence to LGPD, LFPD, and other regulations.
• Established a multi-regional privacy framework across **14 countries/regions**, updated 100+ privacy policies, and reduced app store compliance alerts by **80%** (100% pass rate on Google Play/App Store).
• Developed a **privacy compliance SDK** with user consent modules, enhancing data collection transparency.
• Created a **compliance scanning engine** embedded in CI/CD pipelines, intercepting **50% of privacy defects** and raising pre-release compliance to **99%**.

2. Data Security & Compliance Governance
Role: Built a full lifecycle data risk control system for cross-border flows, classification, and encryption.
• Designed a **"Data Passport" mechanism** to block abnormal cross-border transfers in real-time (**95%+ interception rate**).
• Led **2B+ user data field labeling** and governance, reducing cross-border leakage risks by **89%**.
• Developed a **five-tier data classification model** (P1-P4/SPD) and automated sensitive data anonymization SDKs.

3. Information Security & Compliance Risk Management
Role: Established end-to-end risk controls for vendors, data sharing, permissions, and emergencies.
• **Vendor/Data Sharing Governance**: Enforced strict audits and minimized data sharing, eliminating third-party breaches.
• **Dynamic Permission Management**: Automated revocation of **15K+ redundant permissions**, cutting misuse risks by **76%**; built a real-time **permission heatmap** for global oversight (High risk operation interception rate of 100%).
• **Proactive Compliance Defense**: Implemented product-level PIAs, blocking **23 high-risk designs**; deployed a

regulatory intelligence platform tracking **50+ countries' laws**.
• **Social Media Compliance**: Reduced violation by **67%** on Facebook/Twitter/TikTok through tailored strategies.

4. Compliance Operations & Sustainability
Role: Built a global compliance ecosystem for monitoring, training, and knowledge sharing.
• **Global Workplace Audits**: Quarterly SOP-driven audits across **8 regions**, covering 12 control areas (device encryption, physical security, etc.), improve compliance rates significantly.
• **Industry Leadership**: Authored the **"DiDi Global Privacy Compliance Whitepaper"** (bilingual), adopted as a reference by Singapore's PDPC; built a compliance intelligence platform with **2K+ global regulatory cases**.
• **Certifications & Training**: Achieved **6 certifications** (ISO 27001/27701/22301, etc.); trained **98% of key roles** via multilingual programs and handbooks.

Dec 2019 - Oct 2020 DiDi - Hitch, Safety Operations Department, Safety Disposal Group | Safety Operations

- **Safety Risk Control System Upgrade**: Developed a comprehensive risk dashboard for the Hitch business, identified six high-risk scenarios such as driver onboarding and abnormal stops during trips, and drove 23 policy optimizations, resulting in a 45% reduction in major safety incidents. Designed a PDCA (Plan-Do-Check-Act) closed-loop review mechanism for safety incidents, reducing the average incident response time from 72 hours to 12 hours.

- **Safety Review System Established from Scratch**: Pioneered a standardized framework for business safety incident reviews and developed an automated review tool, achieving a 70% increase in root cause analysis efficiency and raising preventive measure coverage from 60% to 95%. Published the "Hitch Safety Review SOP Manual," which became a benchmark solution for group-wide safety operations.

- **Handling of Major Unexpected Events**: Led the design of an emergency response mechanism across eight departments, coordinated with product, customer service, legal, and other teams, and handled 37 high-risk incidents throughout the year, reducing user complaints by 52%. Established a crisis early warning index model to monitor potential risks in real-time across more than 10 dimensions, including driver ratings and trip trajectories, with a 91% accuracy rate in identifying potential risks.

Nov 2018 - Dec 2019 Alibaba - CRO, Security Department, Data Security Team | Senior Security Operations

- **Account Security Governance Implementation**: Led the lifecycle management of over 100,000 employee accounts, optimized the unified identity directory, achieved a 98% redundant account cleanup rate, and reduced account abuse incidents by 67%. Designed a dynamic permission model and compressed the ACL approval process from 3 days to 2 hours.

- **Risk Control and Auditing**: Developed an account risk profiling system integrated with UEBA (User and Entity Behavior Analytics) to ensure compliant account usage.

- **ACL Permission Operations**: Managed the product operations of ACL permission security services, including optimizing permission management and improving the permission application process to support organizational adjustments within business units.

- **Endpoint and Information Security**: Managed internal endpoint security and information security product operations, led internal product user migration projects and risk governance initiatives, and enhanced overall security protection levels.

- **Risk Governance and Compliance**: Established a communication and collaboration mechanism with business teams, ensured the security compliance of data products and services, conducted data security risk assessments, and developed corrective measures.

- **Data Breach Risk Management**: Responded to data leakage risks from external platforms, established and optimized emergency response processes for data security incidents, and coordinated with various parties to effectively handle emergencies.

Qihoo 360 & 360 Enterprise Security Group (now Qi An Xin)

Aug 2009 - Oct 2018: International Product Manager/Overseas Regional Product Marketing Manager

Apr 2017 - Oct 2018

- Led the development of the first generation of the international version of the 360 Tianqing terminal security management system, independently completed over 50% of the product interface translation work and established the product's international architecture.

- Independently responsible for the marketing of 360 enterprise security terminal security products in Hong Kong, Macao, and Indonesia, established and maintained high-quality customer relationships, and improved the product's overseas pricing system.

- Established internal and external early warning and security emergency response mechanisms, effectively organized responses to major security events such as "WannaCry" and produced offline tools for enterprise customer warnings to minimize potential losses.

- Managed the operation of the Tianqing product's vulnerability repair module, established an operational system, and regularly pushed the latest vulnerability patch libraries and related documents to enterprise customers.

- Established international cooperation and evaluation projects with organizations such as Microsoft and Gartner, successfully organized the international evaluation of the 360 Tianqing terminal security management system (360Skylar).

Jun 2014 - Mar 2017: 360 Total Security Product Operations Manager

Jul 2013 - Jun 2014: 360 Internet Security Product Operations Supervisor

Feb 2010 - Jan 2017: 360 Security Guard Product Operations Supervisor (Vulnerability Repair Module)

- Maintained the system vulnerability database, collected and distributed Microsoft patch packages (Windows Update), ensuring user online safety.

- Pioneered the concept of software security updates in China, collected and distributed vulnerability patch information for commonly used third-party software (such as Adobe series software, Java RE, Firefox browser, CCleaner, etc.), and improved the efficiency of product updates and upgrades through continuous process optimization.

- Actively handled user feedback, provided remote assistance for problem-solving, and operated Sina Weibo, releasing Patch Tuesday previews and announcements, and planned and executed promotional activities for patch releases.

Aug 2009 - Feb 2010: 360 Security Guard - Software Manager Product Operations

Educational Background:

Sep 2004 - Jul 2009, Dalian University of Foreign Languages

Bachelor of English (English-Japanese Bilingual) - Five-year undergraduate program
